

# Five core benefits of a PaaS model for Sophis & Fusion Invest

Experience the managed services revolution with Sophis & Fusion Invest PaaS from Phi Partners.

01 

## Agility

### Speed up your response

Make the transformation to a more agile, responsive and higher-performing trading environment. It's time to reap the benefits of rapid innovation, enabled by Phi's transformational approach to managed services, delivered through the cloud and leveraging automation. Our PaaS solution helps you reduce time-to-market and accelerate change.

02 

## Lower TCO

### Enjoy greater flexibility

Break free from redundant systems that are draining large portions of your budgets. Our PaaS is scalable, flexible and cost-efficient, so you can decide the level that suits you, and sample the many benefits of our managed services. With lower operating costs and greater flexibility, you will save invaluable time, money and resources.

03 

## Platform evergreening

### Maintain your edge, without even trying

Unlock the benefits of annual upgrades as standard. Our PaaS gives you access to the latest platform functionality without the pressure and costs of handling upgrades internally. Our seamless, thorough approach to platform evergreening provides you with greater resilience and the best possible user experience for your teams.

04 

## Expert support, whenever you need it

### Call on the best

Rest easy, knowing you're in safe hands. We combine unrivalled understanding of treasury capital markets with world-leading expertise in cloud and vendor application technology. Whether you need specialist skills or extra capacity, work with us in close partnership and benefit from round-the-clock issue management backed by guaranteed SLAs, delivering regular ongoing improvements.

05 

## Free up your internal teams to add business value

### Focus on your priorities

Rest easy, knowing you're in safe hands. We combine unrivalled understanding of treasury capital markets with world-leading expertise in cloud and vendor application technology. Whether you need specialist skills or extra capacity, work with us in close partnership and benefit from round-the-clock issue management backed by guaranteed SLAs, delivering regular ongoing improvements.

Secure | Scalable | Cost-effective
